

David R. Jackson is a Professor of Electrical and Computer Engineering at University of Houston (UH), Houston, TX. He obtained the B.S.E.E. and M.S.E.E. degrees from the University of Missouri, Columbia, in 1979 and 1981, respectively, and the Ph.D. degree in electrical engineering from the University of California, Los Angeles, in 1985. From 1985 to 1991 he was an Assistant Professor, from 1991 to 1998 he was an Associate Professor, and since 1998 he has been a Professor at UH. His present research interests include microstrip antennas and circuits, leaky-wave antennas, leakage and radiation effects in microwave integrated circuits, periodic structures, and electromagnetic compatibility and interference.

Prof. Jackson is a Fellow of the IEEE and is presently serving as the chair of the Distinguished Lecturer Committee of the IEEE AP-S Society and as a Member-at-Large for U.S. Commission B of URSI (the International Union of Radio Science). He also serves as the chair of the MTT-15 (Microwave Field Theory) Technical Committee and is on the Editorial Board for the IEEE Transactions on Microwave Theory and Techniques. Previously, he has been the chair of the Transnational Committee for the IEEE AP-S Society, the Chapter Activities Coordinator for the AP-S Society, a Distinguished Lecturer for the AP-S Society, a member of the AdCom for the AP-S Society, and an Associate Editor for the IEEE Transactions on Antennas and Propagation. He has also served as the chair of U.S. Commission B of URSI. He has also served as an Associate Editor for Radio Science and the International Journal of RF and Microwave Computer-Aided Engineering.
