

Eric Michielssen received the M.S. degree in electrical engineering (*summa cum laude*) from the Katholieke Universiteit Leuven (KUL), Leuven, Belgium, in 1987, and the Ph.D. degree in electrical engineering from the University of Illinois at Urbana-Champaign (UIUC), Urbana, in 1992. He served as a Research and Teaching Assistant in the Microwaves and Lasers Laboratory, KUL, from 1987 to 1988. From 1988 to 1992, he was a Research and Teaching Assistant with the Electromagnetic Communication Laboratory, UIUC, where he joined as a Faculty Member in the Department of Electrical and Computer Engineering in 1993, reaching the rank of Full Professor in 2002. In 2005, he joined as a Professor of electrical engineering and computer science at the University of Michigan, Ann Arbor. He has authored or coauthored over 130 journal papers and book chapters and over 200 papers in conference proceedings. From 1997 to 1999, he was as an Associate Editor for *Radio Science*. His current research interests include all aspects of theoretical and applied computational electromagnetics. He is also engaged in the development of fast frequency and time-domain integral equation-based techniques for analyzing electromagnetic phenomena and the development of robust optimizers for the synthesis of electromagnetic/optical devices.

Dr. Michielssen received the Belgian American Educational Foundation Fellowship in 1988 and the Schlumberger Fellowship in 1990. He was the recipient of the 1994 International Union of Radio Scientists (URSI) Young Scientist Fellowship, the 1995 National Science Foundation CAREER Award, and the 1998 Applied Computational Electromagnetics Society (ACES) Valued Service Award. He was named the 1999 URSI U.S. National Committee Henry G. Booker Fellow and was selected as the recipient of the 1999 URSI Koga Gold Medal. He was awarded the 2001 Xerox Award for Faculty Research by UIUC. He was appointed as the 2002 Beckman Fellow in the UIUC Center for Advanced Studies. He was named as the 2003 Scholar in the Tel Aviv University Sackler Center for Advanced Studies. He was selected as the UIUC 2003 University and Sony Scholar. He is a member of URSI Commission B. He served as the Technical Chairman of the 1997 ACES Symposium (Review of Progress in Applied Computational Electromagnetics, March 1997, Monterey, CA). He also served on the ACES Board of Directors during 1998–2001 and during 2002–2003, and as the Vice President of ACES during 1998–2001 from 1998 to 2005, he was an Associate Editor for the IEEE Transactions on Antennas and Propagation.
